Medical Standard of fitness for Persons Employed

(i) The person should be in good mental and bodily health and free from any physical defect likely to interfere with his efficient employment in a mine.

(m) Skeletal nervous system: The limbs should be well formed and developed, and the function of all the limbs should be within normal limits. Any deformity should be recorded. There should be no deformity or paralysis which may interfere with his efficient employment in a mine.

(n) Skin: There should be no evidence of extensive and chronic skin disease or ulceration. In case of infective type of skin disease, the candidate could be made fit after he has undergone a treatment. All occupational skin diseases should be noted.

(o) Eye vision should be not less than the following standard:

1. Better eye 6/12
2. Worse eye 6/18

(a) There should be no night blindness for persons employed below ground and for persons employed in open cast working in shifts other than in mornings shifts.

(b) A person having only one eye which functions normally should not be employed below ground. For employment on surface the vision of such a person in the other eye should be 6/18 with or without glasses.

5. Hearing should be good. Any progressive disease affecting hearing/or occupational deafness should be recorded.

6. Speech must be without serious impediment. Unless this is also accompanied by generalised partial paralysis this should not be a reason for declaring unfit.

7. (a) Respiratory system should be sound and free from any chronic bronchial or laryngeal disease. This however alone should not be reason to make unfit.

(c) X-ray examination should be made and free from evidences of active pulmonary tuberculosis he may be permitted to work if his sputum is negative.
on repeated examination and on production of a certificate that he is taking
treatment from a qualified medical practitioner/Hospital.

8. Circulatory system – There should be no evidence of any heart or vascular
disease which may interfere with his efficient employment in a mine.

7. In case the candidate has hernia he may be declared fit after he has been
successfully operated for the same.
8. Hydrocele if present should not be large enough to impede the normal
activities off the candidate. In such cases he may be declared fit after being
successfully operated.
9. The medical examination should include examination of urine and of other
system for evidence of disease. Mere presence of albumen and sugar in the
urine without any gross organic disease producing signs and symptoms
should not be considered as a disability.
