DIRECTOR GENERAL'S MESSAGE

Dear Colleagues and Stakeholders,

I am pleased to present the latest edition of the DGMS Quarterly Bulletin for the period July to September 2025.

During this quarter, DGMS hosted a **National Seminar** on “**Futuristic Approaches to Electrification and Automation in the Mining Industry**”, with active participation from various stakeholders of the mining sector. The seminar provided valuable insights into emerging technologies and the future landscape of mining operations. In addition, DGMS signed a **MoU** with **IIT Kharagpur** to collaboratively address **Occupational Safety and Health (OSH) issues in mines**. During Hindi Pakhwada (14.09.2025 to 29.09.2025), DGMS also organised an in-house **Kavi Sammelan** on **26.09.2025** as part of the celebrations.

DGMS has also made commendable strides this quarter through a wide range of initiatives—Safety Awareness Programs, Tripartite Safety Review Committee Meetings, Silicosis Awareness Campaigns, First-Aid Competitions, Workshops, and Seminars—all aimed at strengthening the culture of safety in mines. These collective efforts reaffirm our sustained commitment to ensuring safer and healthier workplaces across the mining sector.

I also take this opportunity to congratulate the newly appointed Deputy Directors of Mines Safety. Alongside, several capacity-building and training programmes for officers and staff have been conducted at various national institutes, further enhancing our institutional strength. Your leadership and dedication are vital in driving forward our shared mission.

I look forward to our continued efforts in creating a safer, healthier, and sustainable mining sector. Your valuable feedback and suggestions will play a key role in shaping upcoming editions of this bulletin.

Ujjwal Tah
Chief-Inspector of Mines &
Director General of Mines Safety

Directorate General of Mines Safety

No. DGMS (Tech.)(DMRS)/Circular No. 05

Dhanbad dated 22/07/2025

To,

All Owners, Agents, & Managers of Coal & Metalliferous underground Mines

Subject: Rescue Preparedness in case of Emergency in underground mines. –reg.

Provisions have been made in Regulation 252 of the Coal Mines Regulations, 2017, Regulations 190A of the Metalliferous Mines Regulations, & Mines Rescue Rules 1985 for the Rescue & Recovery during Emergency. It is well established fact that any emergency is challenging and requires to check its preparedness and strengthen emergency handling capability, it is a continuous process by revisiting and developing required level of alertness & preparedness.

In this context a mock drill was conducted recently in an underground metalliferous mine as per the protocol of the Crisis Management Plan to check the preparedness.

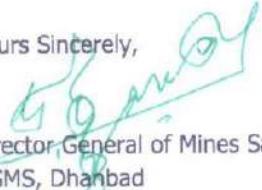

- 1.0 During the mock drill following serious discrepancies/ shortcomings were observed: -
 - a) Rescue tracings were not properly maintained and updated
 - b) Rescue Trained Persons were not available in the mine.
 - c) Properly trained medical team was not available at the mine to deal with the Emergency.
 - d) Assembly point was not earmarked and kept ready at the mine.
 - e) Emergency Plan and trained personals to combat with emergency situations, were not available in the mine.
 - f) Approach roads to mine were improper and rendered difficulty to reach the mine.
 - g) Cooperation and coordination with different agencies in case of mock drill was challenging.
- 2.0 Inspite of adequate provisions in Mines Rescue Rules 1985, and directives issued from time to time from this Directorate, it is deplorable to note that there were many shortcomings in the preparedness. Therefore, all concerned persons, Owners, Agents & Managers are requested to reaffirm the above learnings of the above mock drill and be prepared & alert in the Emergency preparedness, so that during emergency, the

same is attended without any hindrance, for speedy and smooth Rescue & Recovery works.

Needless to reiterate that the conduct of the mock drill at frequent intervals at unit level and continuous efforts for improvement /perfection will save time and utilising resources in efficient manner.

Yours Sincerely,

Director General of Mines Safety
DGMS, Dhanbad
